- As a family, go on a nature walk. Find a park or other natural area where you can look around.
- Too cold or rainy? Go outside and quickly gather a few natural items you can bring inside—a leaf, a stick, a rock, and a blade of grass, for example. You may even have God-made items inside already such as houseplants, fruit, pets...or each other!
- As you look around outside or examine the natural items you brought in, look for evidence of God. Share what you discover!

God Makes People Genesis 1-2

Bible Point

God created us for a reason.

Memory Verse:

I praise you because I am fearfully and wonderfully made. Your works are wonderful!
Psalm 139:14

Activity

Get a blank piece of paper for each person and as many crayons, markers and colored pencils as you can find. Take a moment and be as creative as you can be. You can color, draw or just scribble. Can you see how each person's work is unique?

Do this again with a second blank sheet of paper. Is everything different again? Just think of how creative God was when he mad the world and everyting in it.

Prayer: Thank you for creating me exactly the way you want me to be. Thank you for my family and how you have made us different bur brought us together. Help us to be greatful for our diffrences and to lvoe each other always. In Jesus name, Amen.
